*Breakbulk & Containerized Shipment of Oil Metering Skid from Singapore to Port-Gentil, Gabon in March 2014*

Dear Nicholas,

I have been very pleased with the work carried out by Dawn Shipping with our project of items shipment to Gabon last march.

I was shown a very good level of understanding of our needs, and professionalism in the answers and solutions offered. Very good reactivity has been demonstrated all along the project, with last minute changes that have been perfectly dealt with. I was also pleased with the pro-activity shown towards suppliers when coming to customs documentation, etc. Your very high rate of availability over phone and e-mail has been also really appreciated.

If I have other projects involving transports from Singapore, I will for sure try to have DST involved, and will definitely recommend DST if I have the opportunity to do so.

Regards,
